# Never Up...

Never In... It's Conventional Wisdom.  
Not many examples of Conventional Wisdom Hold Up under Scrutiny.  
This one really does.

In testing, it has proven to be the one constant factor in making putts.  
In fact, your ability to get the ball to the hole governs your peak makes.

Our Putters help you get the ball to the hole consistently, in two ways:  
First, our Putters "Momentum" and "Ball Mass Ratio" are higher..  
Second, our Putters "Distance Control" is far more consistent.  
These two factors mean you can get the ball to the hole..  
Without blowing it past so often.
